Your Full-Service Dental Laboratory

## Removables

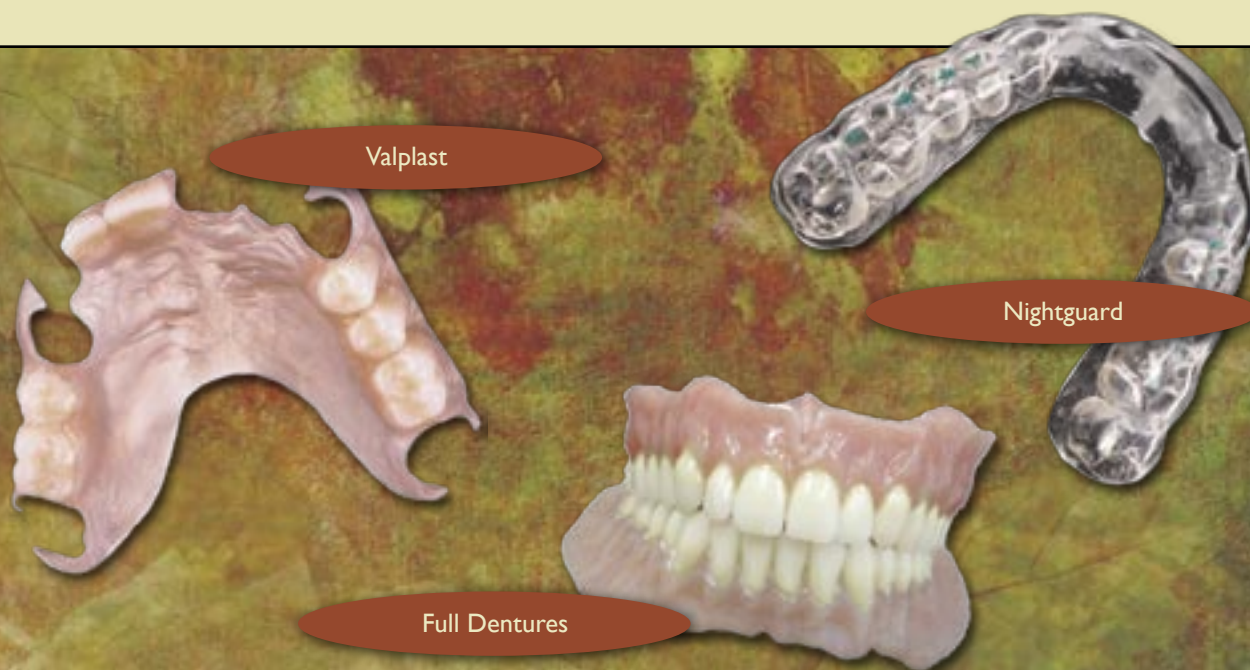

At Gnathodontics Ltd. we have knowledgeable, talented personnel who provide expert case planning and consultation. We fabricate each partial or complete denture with care, and our outstanding craftsmanship means greater patient acceptance with fewer adjustments. Your patients will experience excellent fit and retention thanks to the exceptional abilities of our Removables Department team.

### Wironium®

Gnathodontics Ltd. is the only licensed Wironium dental laboratory in all of Colorado. We do our own vacuum casting of every premium Wironium framework, assuring a quality appliance made to your specifications. The cast alloy creates flexible clasps that are adjustable yet strong, with superior retention, fit, design, and longevity. The strength characteristics yield thinner appliances and lighter connectors for improved phonetics and increased patient acceptance.

From start to finish, Gnathodontics has everything needed for successful partial, denture, and overdenture cases. Our comprehensive range of products, coupled with our hands-on approach, is designed for smooth prosthetic delivery for you and your patients.

### Other Services

Our selection of splints for bruxers and grinders provide relief from the many health concerns affecting TMJ sufferers. Full dentures from Gnathodontics, Ltd. offer superb retention, yielding a beautiful smile your patients will wear with confidence. We use esthetic Ivoclar® teeth that are plaque and wear resistant, won't fade, and can be used for any type of prosthesis.
