**Now available! Patient Consult Models** from ----  
**Gnathodontics, Ltd.** Help explain and promote implants to your patients with these simple, yet effective hands-on models. Made with clear and tissue colored acrylic to show the placed implants, these models represent the following:

- Lower hader bar implant supported overdenture
- Lower direct O-ring abutment overdenture
- Single tooth anterior implant
- 3-unit posterior implant bridge

These models come inside fitted foam inserts and are secured in a durable, plastic presentation case. Perfect visual aid for promoting and educating your potential implant patients-- at less than half the cost that the implant companies sell theirs for! *Call John Bozis today to order yours or to see them in person!*

**\$500** includes case
